As technology leader in its field of business, the Dürr Dental group with its more than 1.400 employees develops, produces and sells system solutions and services for the health sector with an annual business turnover of more than € 381 million with customers in 174 countries in 2025 all over the world.

Cloud Engineer – Machine Learning Platform (m/f/d)

In response to the growing trend of digitalization in the dental industry, we are expanding our software development presence in Malaysia. This strategic expansion aims to enhance our portfolio of software solutions for the dental market.

Your Responsibilities:

- design, build and maintain scalable, secure and reliable cloud-native infrastructure and pipelines for AI/ML development, deployment and serving
- collaborate with data scientists to operationalize machine learning models, converting them into reliable, production-grade services
- enforce reproducibility, versioning, monitoring and governance of models in compliance with internal and external standards
- focus on business needs, evaluate via data driven approach
- foster a culture of collaboration and continuous learning within the team

Requirements:

- bachelor's or master's degree in a STEM field (Science, Technology, Engineering, Mathematics)
- proven experience in cloud computing and CI/CD pipelines, such as AWS, Azure, Google Cloud
- proficiency in REST API design, development and security
- experience with MLOps tools and principles, especially in production environments
- hands-on experience with DevOps and container technologies, such as Git, Docker/Podman, Kubernetes
- experience with machine learning frameworks, familiarity with computer vision is a plus
- understanding of EU/US regulations on medical devices and AI is beneficial
- knowledge of design principles, usability best practices, and accessibility standards is a plus
- strong problem-solving skills and attention to detail
- experience with agile methodologies and modern development workflows
- excellent written and verbal communication abilities
- excellent teamwork and collaboration skills

Our Offer:

- Opportunity to work with the latest technologies and tools
- Creating a modern cloud-based AI solution
- International team environment
- Competitive salary
- Hybrid work week
- Modern office environment
